Ubercart integration	http://community.aegirproject.org/node/516

About mig5

mig5 is Miguel Jacq, a French-Australian Linux sysadmin and core Aegir developer based in Melbourne, Australia.

With over 8 years experience in Linux and 6 years in Drupal, mig5 provides sysadmin support services to small to medium-sized Drupal agencies around the world that can't afford full-time sysadmins.

His primary skills are automating with Puppet, Jenkins, Fabric, high availability systems & performance, developing Drupal-centric deployment methodologies, change management, monitoring, security and disaster recovery.

Do you need someone to manage or tune your Linux servers? Need Aegir help? Come say hi!
